

## PTC Course report

PTC Course: Instructor course

Date : April 1,2007

Venue : Patan Hospital, Lagankhel, Lalitpur

Co-ordinator : Dr Rajesh Gongal

### Executive Summary:

This was the 5<sup>th</sup> instructor course organized in Nepal. It was an important course as it was attended by many participants from outside Kathmandu Valley. The main aim of this course was to start off three new centers for conducting PTC courses outside the capital, namely Tansen, Pokhara and Biratnagar. There were also several participants from the institutions from the Kathmandu Valley.

All participants were good and it was obvious that many had been teaching students for some time in their career.

### Participants:

3:15-4:15	Scenario practice session	all instructors
4:15-5:00	Discussion and certificate distribution	

### **Highlights of the course:**

1. Course attended by 8 participants from outside the valley. All were very keen to start the PTC course in their centre.
2. There were 6 participants from Tansen which will make them capable of functioning as an independent unit. There were two participants who are originally from Oxford who may be returning to their country soon but will be able to help in the first course scheduled for May.
3. There was one participant from Pokhra Pokhra already has several instructors from previous courses so should be able to organise course on their own.

4. There was one participant from Biratnagar who was very keen. He had already organised a semi PTC type of course for paramedics in the past along with his colleague. Biratnagar is one hour drive from Dharan where there are many instructors who can help Dr Ganesh Gurung from Biratnagar.
5. All in all, we had a group very motivated and qualified instructors.
